

reportSystem::ReportSystem  
::checkSystemHealth

reportSystem::ReportSystem  
::checkThresholds

reportSystem::ReportSystem  
::logError

```
graph LR; A[reportSystem::ReportSystem::checkSystemHealth] --> C[reportSystem::ReportSystem::logError]; B[reportSystem::ReportSystem::checkThresholds] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, two white rectangular boxes with black borders represent source methods: 'reportSystem::ReportSystem::checkSystemHealth' (top) and 'reportSystem::ReportSystem::checkThresholds' (bottom). On the right, a gray rectangular box with a black border represents the target method: 'reportSystem::ReportSystem::logError'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both source methods call or depend on the target method.
